

Work Experience

- Business Analyst at Jaryq Lab** — Almaty, Kazakhstan (remote, contract → on-site, full-time)**Nov 2025 – Present**
 - Led discovery, requirements definition, process mapping, wireframing, QA, and delivery of a DNA-processing platform replacing a shell-script workflow with a user-friendly web application — zero production bugs reported to date
 - Collected, organized and transferred knowledge across multiple projects; coordinated engineering and client communication
- Founder at Young Student** — Karaganda, Kazakhstan (side project: Jan 2019–Mar 2024 → full-time)**Apr 2024 – Mar 2025**
 - Founded, operated, and successfully commercialized a university SaaS platform, tripled pricing in 2024; [project's case study](#)
 - Built an EDMS for university student service centers – owning the entire SDLC. Processed over 30,000 applications, generated 2,500+ verifiable e-documents, and cut the operating costs by 80%, turning physical visits to the office obsolete
 - Designed business-logic constructor to set up service stages, transitions, documents, signers, forms, and UI elements via GUI
 - Hired a freelancer for mobile app development, trained a non-coder into a full-stack developer, and ran a developer internship
- Lead Frontend Developer at Sequencing** — Pasadena, CA, USA (remote, full-time)**Nov 2022 – Sep 2023**
 - Led frontend development of [Health Scan](#) and [Next-Gen Disease Screen](#) — launches pivotal to securing Series A funding — roadmapping and executing precise delivery estimates, delegating to senior developers, and collaborating with the bioinformatics team on data structures and integration strategies optimized for client performance
 - Proactively flagged UX and data issues, improved legacy code, and authored dev tickets with clear context and QA criteria
- Lead Frontend Developer at Blockchain & Big Data Lab** — Almaty, Kazakhstan (hybrid, full-time)**Feb 2021 – Mar 2022**
 - Translated client needs into functional requirements, proposed the roadmap, selected and defended the tech stack (including RTK Query at its launch), led weekly briefings with stakeholders, coordinated with the client's backend engineer, and onboarded a junior developer on an outsource project — CMS for [Astana International Airport](#) — delivering the product in 1.5 months
 - Championed the JavaScript-to-TypeScript migration across frontend teams; code reviewed and contributed to multiple projects
- Full-Stack Web & Mobile Developer at EurasianTech** — Moscow, Russia (remote, contract)**Dec 2019 – Jan 2020**
 - Built a corporate e-commerce PoC website in 1 month and delivered a cross-platform mobile app in the next 3 weeks
- Mobile Developer at Silkway Labs** — Karaganda, Kazakhstan (on-site, full-time)**May – Aug 2019**
 - Developed an audio-feed mobile app for a U.S. client — 40+ responsive screens with audio recording & playback functionalities
 - Took over client communication from the scrum master, accelerating project delivery

Education

- Karaganda University of Kazpotrebsouz** — Karaganda, Kazakhstan**Jan 2019 – Jun 2021**
 - B.Eng. in Computer Software Engineering (transferred from Pusan National University); Academic Council Scholarship
- Pusan National University** — Busan, South Korea**Sep 2016 – Jun 2018**
 - Coursework toward B.Sc. in Computer Science Engineering; Excellent International Students Scholarship

Programs & Courses

Strong Junior Product Manager — [Product Masters](#) (2024) · [Accelerator](#) (2024) & [Incubator](#) (2022) — [Terricon Valley](#) · [Business Unit Analysis](#) — [Product University](#) (2020) · [Startup School](#) — [Y Combinator](#) (2020) · [Tech Central Asia Pre-Acceleration Program](#) — [NURIS](#) (2019) · [AWS Fundamentals](#) (2019) — [AWS](#) · [Piscine](#) — [42 Silicon Valley](#) (2018) · [nFactorial Incubator](#) (2018)

Skills

Product & Delivery: requirements (BRD/PRD/FRD), user stories, acceptance criteria, roadmapping, backlog management, prioritization, Agile/Scrum & Kanban, stakeholder management, MVP/PoC, user interviews, market research, unit economics

Analytics & Data: product analytics (Mixpanel, Hotjar, Google Analytics, SQL), monitoring (Sentry)

Tools: Linear, Jira, Confluence, Notion, Balsamiq, Stitch, Figma, Claude, draw.io, Mermaid, Miro, Postman, Google Workspace

Engineering (context): JavaScript/TypeScript, Ruby, Java, C; PostgreSQL, MySQL, MongoDB, Firebase, SQLite; REST, GraphQL, WebSockets, SSE; Git, Docker, AWS, Vercel

Languages (fluent): English, Russian, Kazakh
